Upon motion of Mr. Readshaw, seconded by Ms. Smith, the Board approved the minutes of the Regular Board Meeting of October 25, 2018.

Upon motion of Ms. Smith, seconded by Mr. Readshaw, the Board authorized payment of invoices in excess of $20,100.00 processed during the period of October 16, 2018 through November 5, 2018, and reviewed the summary report of expenses in excess of $10,900.00 processed during the same period, a copy of which will be made part of these minutes.

Upon motion of Mr. Weinstein, seconded by Mr. Readshaw, the Board authorized the preparation of specifications and advertisement for bids for the following contracts:

The following change orders exceed $30,000.00 in value or the cumulative total value with previously approved change orders is greater than five percent of the original contract amount:
1. Upon motion of Mr. Readshaw, seconded by Ms. Smith, the Board approved Change Order No. 1, under Contract 1680, “Chimney Rehabilitation,” from Pullman Power, for the amount of $247,080.00 for additional unit price work associated with the Mortar Joint Repointing quantity, a contract time extension and an additional demobilization/remobilization. The original amount of the contract was $728,987.43. The current value of the contract including this change order is $976,067.43. Ms. Williams stated that while this change order is substantial it is a good expenditure (demolition would have been far more costly); the change order was reviewed by the Authority’s Solicitor. The Board was informed that additional work on the chimney is necessary and a request for additional funds will be presented at a later date. While the base bid for this project included what was thought to be a conservative estimate of 60,000 linear feet of repointing; it was discovered after work commenced the quantity in need of mortar joint repointing was actually 88,000 linear feet.

2. Upon motion of Ms. Smith, seconded by Mr. Weinstein, the Board approved Change Order No. 1, under Contract 1659A, “Annual Interceptor Cleaning Contract,” from Independent Enterprise Inc., for the amount of $844,455.00 to perform emergency repairs on the subaqueous interceptor between M-44 junction and M-44-02. This change order also includes the addition of 120 calendar days for delays due to wet weather conditions and increased time for the emergency repairs. The original amount of the contract was $2,592,965.00 and the contract time was 365 days. The current value of the contract including this change order is $3,437,420.00.

She is “really expecting something pretty spectacular from our new website . . . it is a hefty fee. . . especially in light of the fact that we also have the other site, the 3 Rivers Proud site that we are doing some interesting things on.” Mr. Weinstein agreed with Ms. Smith that it is a substantial fee and stated, “while he is in full support of redesigning the website $400,000 is . . . seems extremely high.” Ms. Williams informed the Board that both sites will be rolled into one ultimate website. Mr. Readshaw recommended that since there seems to be some concern, as progression of services takes place on this project, the Board is kept abreast of those progression of services; Ms. Williams avowed this would be done.

Upon motion of Ms. Smith, seconded by Mr. Weinstein, the Board agreed to modify the Grant Agreement for the Green Revitalization of Our Waterways (GROW) Program by extending the Term of the Contract.
