CONTRACT 1808
CIPP REHABILITATION OF THE UPPER SAW MILL RUN AND

CONTRACT

QUESTIONS & RESPONSES

- 1. Would the owner approve the use of HDPE and/or composite matting as an alternative to wooden mats? Would the owner consider allowing the install of a permanent access road using crushed stone and leaving in place post-construction?**
 - a. Yes, the use of HDPE and/or composite matting may be acceptable. Materials will be reviewed as part of the submittal process.
 - b. No, the installation of a permanent access road using crushed stone will not be allowed. The environmental permits only allow temporary access, and permission would be required from the property owner (i.e. CSX railroad).

- 2. Several off-road areas will require tree clearing & temporary matting outside of the limits shown on the contract drawings. The proposed rehabilitation activities will need vehicular access to some of the manholes in these areas. Would the owner confirm the contractor will be permitted access? See below locations:**
 - i. SM-ES-9 to SM-ES-11**
 - ii. LO-ES-7 to LO-ES-9**
 - iii. BC-ES-3**
 - a. The erosion and sediment control measures outlined include minimum required mitigation measures to be in place during excavation and replacement of known open cut pipe replacement sections within regulated floodways. Yes, the contractor is permitted access to the manholes and locations required for repairs and rehabilitation. All in floodway work shall comply with the GP-11 permit requirements for Saw Mill Run, Lower Ohio and Brush Creek sites. All costs associated with erosion and sediment control, tree clearing, and temporary matting for these sites, and the non-floodway sites, should be included in your bid cost under items 32-35.

3. Bid item #16 - CIPP Rehabilitation of 24" Diameter Sewer (All Other Sites) shows a quantity of 70 LF but the drawings do not show any 24" CIPP outside of the SMR & Lower Ohio sites. Is this footage to be considered contingent? If not, can the owner advise what location this scope covers? There was a 24" CIPP install location added via addendum #1 but it appears a separate bid item (#C-59) was provided for this work.

a. Bidder is directed to eliminate bid item #16. Quantities for 24" CIPP lining have been included in other line items. Article 1 is reissued with the revised bid tab included as part of this addendum.
