INFORMATIONAL

An Informational Meeting was held via Microsoft Teams for the above project on March 3, 2025, at 10:00 a.m. The meeting was attended by: Mike Litche, Suzanne Thomas, Julia Spicher, Nate Carll, Ash Eberle and Beth Mellinger.

The following additional questions were submitted during this meeting:

1. With the requirement of using SF 330 Part I, please confirm if it is acceptable to include the required tabs within Section H of the SF 330?
 - a. Only need Part I of the SF 330. Please make it as clear as possible. The MBE/WBE and the right to know will be in other sections. A broad statement on RTK is not acceptable; please include specific pages or sections that are exempt.
 - b. Your submittal is SF 330; you can use section H and the various tabs. There are forms for Right to Know and Conflict of Interest. Read the RFQ. Anything beyond what we ask will not be looked at.
2. Will the recording be shared and if so, when?
 - a. No. What will be shared is a list of companies in attendance, the presentation, and the addendum with questions and answers. The recording is for record-keeping only.
3. Do you know the anticipated largest pipe diameter size that could connect to one of these structures and thus require CCTV/PACP inspection?
 - a. The largest exiting pipe diameter is 48 inches.
 - b. The largest incoming pipe diameter is 60 inches.
4. Will a list of the sites be provided during RFQ or will that be provided for RFP only?
 - a. It will be provided in the RFP.
